CONFIGURE-8

CONFIGURE-8

DESIGNED BY DAVID HILL

CONFIGURE-8

DESIGNED BY DAVID HILL

The Configure-8 table range offers a stunningly superior look. Designed using anodised aluminium this sleek, slim and lightweight table will look great in any meeting, conference or board room.

This table range is lighter than comparable table systems giving ease of handling but maintaining the strength and durability you have come to expect from a Burgess table range. The largest table, the 180 x 75cm rectangle, weighs less than 25 Kg.

The tops are available in a range of top quality laminate finishes

with hardwood edges and optional leg infill panels to match or contrast whichever suits your needs.

Each table is fitted with discreet linking clips, so you can join several tables together to create exactly the right layout you need. It also has adjustable feet to get just the right level in any room situation.

A choice of aluminium or matching laminate modesty panels is available to complete this unique and versatile table system.

75cm wide with walnut infill

60cm wide with cherry infill

45cm wide without infill
