STACK

CONTRAST

DUO

DESIGNED BY SIMON PENGELLY

DUO designed by Simon Pengelly, is a multipurpose seat stacking chair for the corporate and leisure markets, with distinctive low-profile upholstery and triangular tube. The chair is available in a large range of fabrics and frame finishes. For that special look you could have contrasting fabrics on the seat and back, this would add more definition to an already unique chair.

With its lightweight aluminium frame and ergonomic seat and back, DUO is also available with the option of a detachable linking/numbering device. The DUO can be stacked 10 high and a trolley is available to enable the chairs to be handled and stored easily.
