FLAIR

FLAIR

DESIGNED BY PETER ROTH

FLAIR

DESIGNED BY PETER ROTH

The FLAIR chair is designed for use in all aspects of conferencing, from the large congress hall facility to the intimate meeting room. FLAIR incorporates all that is desirable in a conference chair. The multi-contoured seat shell offers true comfort while maintaining a compact footprint for maximum numbers and the simple aesthetics and clean lines give architects and designers flexibility to offer a contemporary solution for all

environments. FLAIR is available either fully upholstered or with a polished show-wood shell finished in natural beech, cherry or walnut. The chrome plated frame features a unique flared leg detail and a foot incorporating a stacking buffer. Optional features include a retractable link, number clip, recessed handle and a detachable tablet. The stacking trolley enables the chairs to be handled and stored easily.
