VIO

VIO

VIO is a new range of multipurpose stacking chairs for use across banqueting, conference and meeting rooms. The design elements that combine to create this contemporary collection include our unique triangular aluminium tube, which achieves remarkable strength & durability, and a deceptively slim sprung seat and flexing back. With the option of a mesh-back or a fully upholstered version,

all-day comfort is assured. Both are fitted with a contoured top-rail, for ease of handling. Vio chairs will stack 7 high and are available with or without black or grey polyurethane arms. Options include retractable linking, detachable tablets and a stacking trolley for handling as featured in the PIO brochure.
