

Magiglide – an Effective and timely solution:

SAVE MANPOWER

Magiglide reduces your manpower requirements. Cleaning has never been easier. Now one person can do the same job, which previously took several staff.

More efficiency! More productivity!

Magiglide allows heavy furniture to be moved much quicker, safely and silently than ever before. Housekeeping duties are completed more efficiently and in less time. Productivity is increased as other staff can be freed for other important tasks. Magiglide is also perfect for hospitality industries and restaurants: thus setting up is faster with less time spent on furniture and floor maintenance.

SAVE COSTS

Save up to 40% on maintenance every year.

- Magiglide smooth surface avoids scratches and tracings on floorings, thereby reducing maintenance costs resulting from floor repair and renovations.
- Magiglide absorbs vibrations and protect furniture legs and bases from damages during motion, drastically reducing risks of breakage and extending the shelf life of your investment.

Furniture's maintenance and floors' renovation will be reduced by two to four times a year.

IMPROVE CUSTOMER'S SATISFACTION

Magiglides bring to their users comfort and satisfaction ! Because all furniture can be moved easily, silently and safely, every corner at your place can be reached and cleaned.

- There is a better hygiene everywhere in the premise.
- flexibility and easy use of furniture in different environment.
- Noise Pollution is reduced thus creating a better atmosphere in each area.

Service to guests is improved.
